Environmental Management System

echo is a leading UK provider of specialist technology and logistics sector support services and is committed to continuously improving the environmental impact of its business activities.

echo's environmental policy will be enacted by an Environmental Management System covering major sites and operational areas that will:

1. Comply fully with all relevant environmental legislation, regulations and other relevant requirements.
2. Set clear environmental objectives, which are relevant to the nature, scale and environmental impacts of our activities.
3. Provide the framework for setting and reviewing environmental objectives and targets, including the reuse, recycling and reduction of all waste.
4. Actively prevent pollution and ensure an emergency response capability to cope with accidental pollution incidents.
5. Reducing waste and re-using or recycling materials where appropriate.
6. Reducing the consumption of energy by sensible energy management of our buildings, equipment and vehicles.
7. Promote car sharing, the use of public transport, telephone and web conferencing.
8. Liaise with our customers and suppliers to promote sound environmental practice in the selection, use and disposal of all materials used in the company's business.
9. Be documented, communicated to employees and used to improve awareness of environmental matters.
10. Be regularly reviewed, reported and amended as appropriate.

This echo Environmental Policy will be made available to customers, suppliers and the public.
