

IT Rollouts & Upgrades

Business Services

Replacement or upgrading of IT equipment in the field can be a costly and involved process.

echo's Rollout and Upgrades service supports some of the UK most prestigious IT services providers, computer manufacturers and value added resellers. Our ability to deliver simultaneous multi site installations allows nationwide rollouts to be completed in the shortest time possible.

This means companywide upgrades can be completed in days not weeks, providing a real competitive advantage when bidding for major supply projects.

echo's project managers, working alongside your project team, will schedule and manage the project's component parts from our extensive portfolio of services.

From a simple monitor change, full scale hardware migration or a software upgrade, echo's trained staff can provide the appropriate solution for you.
