

Project Management

Secure Courier

The success of any project is largely dependent on having experienced project managers with the knowledge and expertise to ensure a project is completed on time and within budget.

echo's project managers and project engineers provide the most suitable level of experience at realistic prices.

Working either independently or as part of your project team, echo's qualified and security cleared personnel provide the most effective and financially viable solutions.

We are able to provide resources from a single project manager to a team of field based engineers.

We work in partnership with most of the premier IT and communications companies delivering large scale projects that include desktop upgrades, server redeployments, broadband installations, EPOS updates, office moves, WiFi installations and laptop exchanges
